McGREGOR BROTHERS,

PLANTS FOR FLORISTS

SPRINGFIELD, OHIO.

OUR SPECIALTY FOR FALL, THE GREAT RORCING VARIETY,

WABAN

THE NEW ROSE, WABAN

This very valuable Rose originated at the Waban Conservatories of **E. M. Wood & Co.**, Natick, Mass. It is a **sport** from Catherine Mermet, and identical with that variety in every characteristic, excepting color, which is a rich, deep, **bright pink.** It sustains the same relation to its parent as Duchess of Albany does to La France. The only objection to Catherine Mermet is its frequently pale, insipid color in cloudy weather. Experience has shown that the **Waban** retains its deep rich color in all kinds of weather. It will, without doubt, prove to be as valuable as **The Bride,** which is also a sport from the same magnificent variety,

Recognizing its great value, we have prepared to meet a large demand for it, and place it at a price that will induce every Florist to plant a few this Fall as a test. You remember it was distributed this past Spring at $1.00 each; $9.00 per dozen; $50.00 per hundred.

We offer now strong two-inch pots, $1.50 per dozen; $8 per hundred.
Very Fine Selected, two and one-half inch pots, $2 per doz.; $12 per hundred.
Stock Plants, four-inch pots, $5 per dozen.

50 cents per dozen; $4.00 per hundred.

LUCIOLE.

LUCIOLE.

MADAME DE WATTEVILLE.

The habit is good, and it is a thrifty grower. The leafage is beautiful, the fragrance very delightful, while peculiar. This is the "Tulip Rose," so called in Europe because of the feathery shading of bright rose around the edge of every petal, the body of the petal being creamy white and of heavy texture. **50 cents per dozen; $4.00 per hundred.**

YOUNG PLANTS, READY OCT. 1st, 25c EACH; $2.25 PER SET OF TWELVE.

SUGAR LOAF.—This is a variety for everybody. It is the freest growing and freest flowering sort that we know, and under the most ordinary treatment produces quantities of flowers of the grandest size. The outer petals recurve slightly, while the inner rows incurve. The color is varying shades of yellow, often shaded bronze, sometimes perfectly clear. A giant grower, with corresponding constitution. This variety took the fifty-dollar premium as best seedling at the Cincinnati show, and was one of six to win the one hundred dollars at Indianapolis. Extra large flowers, can be cut with long, straight stems.

FRANK THOMSON.—A splendid flower, very nearly spherical in form; petals very broad and heavy, finely incurving; it is very nearly white in color, only showing a touch of pearl-pink at the base of the petals. The gentleman for whom it was named by Hugh Graham's Sons sent the raisers a valuable silver cup, to show his appreciation of the magnificent flower named for him. Received first-class certificate at Indianapolis. A strong grower, carrying flowers on stiff stems. The bloom of this variety sold at $9.00 per dozen over the counter in Philadelphia last Fall.

EMILY DORNER.—This variety was seen in fine shape at Indianapolis. It is a rather dwarf grower, but very sturdy. The flower is nicely incurved, petals broad, and of the richest shade of orange yellow, touched with crimson. Have tried this for two years, and find it fully up to standard—A No. 1. Received first-class certificate at Indianapolis, 1889, and was in the winning stand of twenty-five noted sorts in 1890. Color extremely rich.

EVALEEN STEIN.—A grand flower of large size, very double and full, of a delicate white color. Petals horizontal, with half an inch turned up at an angle, and dividing like the variety called Elkshorn. Received certificate of merit.

ELMER D. SMITH.—(Our own seedling.) In the hands of our "crack growers" we believe that this variety can be made to outrank all others in the size of its diameter and number of its petals. The foliage is very large and heavy, and dark green; the color is cardinal red, of a very rich pleasing shade faced upon the back of the petals with clear chamois; comes nearer being a scarlet maroon than any other of the Wheeler type yet sent out. The flower attains a great size even under the most ordinary treatment.

INNOCENCE.—A chaste and beautiful white, the white being of a purity not approached in other white varieties. The form is incurved the same as H. Cannel or T. C. Price. Received certificate of merit.

EDA PRASS.—A fine, bold, recurving, globular flower of great substance and depth. When opening, of a delicate salmon, then changing to a creamy white, delicately shaded blush. Received certificate of merit.

MRS. I. D. SAILER.—Took the Sailer prize at Philadelphia. A flower of the largest size, finely incurving, broad, sharply pointed petals; strong grower, producing heavy flower stems; the color is soft, shell-pink, touched with lemon on the extreme tips of petals. Its keeping qualities are extraordinary. As shown by W. K. Harris, it is one-third larger than Ada Spaulding and nearly a globe in form. (It was the contest for this prize between Messrs. Thorpe and Harris which caused so much sport for the Philadelphia brethren.)

FLORA HILL.—What Widener is among yellows, Flora Hill is among whites. The finish of the flower is exquisite. It is of splendid size and heavy texture; outer petals horizontal or slightly recurving; the creamy center is perfectly full and incurved It is a good, clean grower, with fine constitution. Mr. Robert Craig says: "Flora Hill is simply grand; finer than any other white; very large and full." This received first-class certificate at Indianapolis. One of the most beautiful forms and most perfect whites in the whole Chrysanthemum family.

JOHN GOODE.—(W. K. Harris.) This is a fancy cut-flower variety which completely captivated us. It is of almost globular form, of the finest silky finish, and destined to become a standard sort for cutting; the outer petals are delicate lavender, forming a decided band of color, the inner petals are clear lemon. A plant in bloom has a most beautiful airy appearance; it is a light willowy grower, strong and healthy. In all but color resembles the popular variety, Mrs. Geo. Bullock. Its earliness prevented its appearance at the Eastern shows.

MERMAID.—A soft mellow pink, with deeper shading on the outer edge, while at the base it is of a deep cream; a fine incurving globular flower, the admiration of all the florists who saw it, and pronounced it a variety for cutting purposes, on account of its color, strong stem and excellent keeping qualities. A strong, healthy grower. Received certificate of merit.

R. MAITRE.—Not surpassed by any pink in cultivation; of the largest size, perfectly double, and without a trace of coarseness. This variety will take rank with the finest. A splendid keeper, of most symmetrical form, and a thrifty grower. It perfects numerous flowers to the single plant. One of the six varieties which took the one hundred dollar premium at Indianapolis. The color is delicate and exquisitely beautiful.

HENDERSON'S

PINK OSTRICH PLUME, "LOUIS BŒHMER."

The "Louis Bœhmer" has the same wonderful hair-like growth or excrescences that appeared for the first time in the white variety, "Mrs. Alpheus Hardy," but it differs from it in color, being a most beautiful shade of lavender pink, shaded with silvery-pink on the ends of the petals. The flowers are splendidly incurved, the inside of the petals are deep rose, so that the contrast between their inner and outer surfaces is very decided, and adds greatly to the appearance of the flowers. For evening wear the "Louis Bœhmer" will be sure to be in demand, as its color under gaslight is a soft, pleasing pink. Awarded a silver medal at Philadelphia, and certificates of merit at Orange, New Jersey, and other places.

A rapid and beautiful new climber. The flowers are from an inch to an inch and a half in length, of a most intense scarlet, shading into flame, tipped with bright golden-yellow, and are covered with a thick, scarlet moss. The brilliancy of the flowers is greatly enhanced by the waxy-green light leaves, and the blossoms remain on the plants weeks before falling. This variety must not be confounded with the old Manettia Cordifolia, as it is far superior to the old variety.

Young plants, 50 cents per dozen, $4.00 per 100. Stock plants, 5-inch pots, $1.50 per dozen.
